

BUDS RESIDENTIAL GUIDE TO DINING WITHOUT GLUTEN

HEALTH & WELLNESS

Binghamton University Dining Services understands the importance of a balanced and nutritious diet for those dining without gluten. We provide a variety of options across campus that are made without gluten. While our dining facilities are not gluten free, we have made it easy for you to identify what items contain gluten ingredients. Menu items that contain major allergens (milk, egg, soy, wheat, fish, shellfish, peanuts, tree nuts and sesame) and gluten as part of their ingredients are identified on our menu screens and identifiers. If you are sensitive to cross-contact and/or require a gluten-free diet, please contact our dietitians to best determine how BUDS can meet your dietary needs.
