

EAT WASH REPEAT

WasteWatch REUSE

Need to take your meal to go? Get a Green To Go Container!

Here's how to get started:

- If you do not have a Green To Go Container, you can purchase one for \$5 at the check-in station of the Ware Campus Center Dining Hall. Choose to use your container upon purchase or be given a carabiner or token.
- Take your carabiner or token to the Dining Hall when you wish to use a container. The checker will give you a clean container in exchange for your carabiner or token. You will leave your Student ID with the checker while you prepare your to-go meal. Once you have retrieved your desired meal, head back to the checker and get your ID. Take your meal and enjoy!
- The next time you come to dine with us, give the Ware Campus Center Dining Hall checker your used container. If you wish to take another meal to go, swap your used container for a clean one. If not, get a carabiner or token!

By participating in the Green To Go Program, you agree that:

- You have read and agree to the rules of the Green To Go program on this document. You fully understand that Sodexo Dining Services at Colby-Sawyer College and its employees will not be responsible or held accountable for the safety of your food in Green To Go Containers once it has left the Ware Campus Center Dining Hall. You fully understand it is your responsibility to properly store and reheat your food. Leftover foods should be refrigerated at 40°F or below as soon as possible and within two hours of preparation. It's OK to put hot foods directly into the refrigerator. You understand that by not following the stated rules or purposely abusing the Green To Go containers and tokens, you will lose all container privileges for the academic year.

MUST:

- Let Ware Campus Center Dining Hall Checker know when you are planning to use your container or surrender a used container at time of check in.
- Surrender a used container, carabiner, or token to get a new container.
- Get a carabiner or token when not collecting a clean container.
- Use ONLY the container we provide you to get your meal to go.
- Please rinse out your used containers before bringing them back to be exchanged for a clean container or token.

MUST NOT:

- Check in, sit, and then go to the checker for a container.
- Eat a meal and take a meal to go in the container. You are only filling your container; not filling it and eating a meal. 1 swipe = one container full OR one seated meal, NOT both.
- Fill already used container/use container twice.
- Share your container, carabiner, or token with others.
- Take silverware or cups from the Ware Campus Center Dining Hall.
- Containers may not be used at other dining locations on campus.
- Use any other containers in the Ware Campus Center Dining Hall to take out food

OTHER RULES:

- If you lose or forget your carabiner, token, or container YOU WILL NOT be able to get a clean container at the check in desk. You will need to find your lost item or purchase a new container.
- Not following the above or purposely abusing the Green To containers carabiners, or tokens will result in loss of container and complete loss of Green To Go privileges for the academic year.

Food Safety Rules:

“Leftover foods should be refrigerated at 40°F or below as soon as possible and within two hours of preparation. It's OK to put hot foods directly into the refrigerator. Leftovers should be reheated to at least 165°F before serving.”
